NOTES AND INSTRUCTIONS

- The purpose of this checklist is to help define a complete submittal package for the scope of work. Plan review will not take place until a complete package is submitted.
- This checklist can be used for all commercial construction projects, including new construction, additions, alterations and tenant improvements.
- For complex projects, applicants should use the “location” space to note the item’s location and page number from the plans or the specification book.
- It is not necessary to duplicate submittal information, even if it is asked for in multiple sections.
- In the checklist, “Required” means that the applicant must provide this information for plan review.
- In the checklist, “P” means —
 - *if checked by the applicant* — the information is provided for the plan review.
 - *if checked by the plans reviewer* — this information is required for the plan review.
- In the checklist, “NA” means that the information does not apply.
- Choose only those sections of the checklist that apply to your scope of work. Section 1.0, “General Project Data,” must be included with each project submitted.

PRE-SUBMITTAL PROCESS

An applicant may request a pre-submittal meeting with representatives of the jurisdiction in which the project will be built. The meeting may take place during the conceptual, schematic, or in-progress phase, or when the applicant has completed plans.
